

Your Excellency,

We respectfully present AMIRSAN – American Medical Research, Systems & Network, a United States-based medical systems organization specialized in deployable hospitals, emergency care units, diagnostic infrastructure and humanitarian health solutions.

AMIRSAN operates in strategic partnership with TURMAKS Medical Systems (Turkey), a highly experienced global manufacturer of field hospitals and modular healthcare infrastructure, with more than 100 medical deployments worldwide.

Through this American–Turkish collaboration, we are able to design, mobilize and deliver complete medical facilities tailored to the needs of partner countries.

Our role is not limited to technology — we also mobilize financial donors internationally to secure funding for healthcare infrastructure in countries such as (.....).

AMIRSAN does not require the Government of (.....) to make direct financial investment; instead, we work with:

- Global donor agencies
- Humanitarian health funds
- International foundations
- Private philanthropic medical partners

Once financing is obtained, AMIRSAN together with TURMAKS can deliver complete turn-key hospitals, emergency clinics and critical-care medical systems within an agreed deployment schedule.

We kindly request an initial technical meeting with your Ministry to:

Conduct a needs assessment for priority regions

Structure a donor-funding file based on (.....)'s requirements

Prepare project documentation for international financing

We would be honored to support the Republic of (.....) in strengthening public health capacity through this cooperative American–Turkish initiative.

Respectfully,

AMIRSAN (USA) – Program Coordination Office

## COUNTRY-SPECIFIC VERSION — (.....)

**AMIRSAN (USA)** in partnership with **TURMAKS Medical Systems (Turkey)**

*Donor-Funded Modular Hospital Deployment for the Republic of (.....)*

### Purpose:

To implement new hospital capacity in (.....) without government expenditure, fully funded through international donor mobilization.

### Framework

1. Needs Assessment ((.....) + AMIRSAN)
2. Project File & Technical Budget
3. Donor Funding Acquisition
4. Production (TURMAKS)
5. Hospital Delivery & Operation → (.....)

## 1. Who We Are

**AMIRSAN (USA)** is an American medical engineering & project development organization specializing in donor-funded hospital deployment, medical network design, and emergency health infrastructure planning.

We work in joint operational partnership with TURMAKS Medical Systems (Turkey) — a global leader in field hospitals & modular medical structures with international installations across multiple continents. Together we bring:

Component	Owner
Donor mobilization & financing architecture	AMIRSAN (USA)
Hospital manufacturing & deployment	TURMAKS (Turkey)
Government cooperation and facility integration	Partner Country

## 2. Deployment Model

Our solution is **not budget-dependent** for the host country.

We secure funding through:

- Global donor funds
- International health investment programs
- World-level humanitarian foundations

1170 River Bay Road Annapolis MD 21409

Phone: +1 (240) 505 8098 [www.amirsan.com](http://www.amirsan.com) info@amirsan.com

- Private philanthropic capital channels

Country contribution is strategic — not financial.

### 3. Operational Framework (Universal – Every Country)

Phase	Responsibility	Output
1. Needs Assessment	Ministry + AMIRSAN	Gap Analysis + Regional Map
2. Technical Project File	AMIRSAN + TURMAKS	Cost + Timeline + Deployment Plan
3. Donor Funding Acquisition	AMIRSAN	Financing Secured
4. Production & Delivery	TURMAKS	Turn-Key Modular Hospital
5. Handover & Operation	Partner Country	Facility Operational

### 4. Medical Modules Available for Integration

ICU  
 Operating Theatre  
 Diagnostic Imaging (US/X-Ray/CT option)  
 Laboratory Units (PCR, Hematology, Biochemistry)  
 Maternity & Neonatal  
 Dentistry / Trauma  
 Pharmacy + Sterilization + Oxygen Generation

### 5. Hospital Capability Portfolio (Suggested first phase for (.....))

Model	Beds	Suitable for (.....) Use?
20-bed Field Clinic		Immediate rural support
40-bed Modular Hospital		Regional stabilization
60-bed Full Facility		Urban/Capital expansion
Mobile Clinic Network		Remote population coverage

### 6. Hospital Portfolio (Global Reusable)

Model	Capacity	Deploy Time
20-Bed Rapid Clinic	30–60 days	Emergency / Disease
40-Bed Modular Hospital	60–120 days	Standard Care + Surgical
60-Bed Regional Hospital	90–210 days	Full-spectrum medical
Mobile Clinic Network	Scalable	Rural & Nomadic regions

## 7. Why Countries Prefer This Model

Advantage	Benefit
No upfront government expenditure	Donors fund the infrastructure
Faster deployment than traditional hospitals	Weeks-to-months instead of years
Scalable — add beds anytime	Population growth safe
Works in war, disaster & low-access zones	Zero-infrastructure requirement
American project ops + Turkish engineering	Dual-nation reliability

### Immediate Action

We request authorization to conduct a Needs & Feasibility Study, after which AMIRSAN will prepare a donor-ready project file and initiate funding acquisition to deploy hospitals based on your national priority.

AMIRSAN commits to full transparency, donor compliance, and international reporting standards throughout all project phases.

**AMIRSAN**  
American Medical International Research,  
Systems and Network

## **ANNEX-A — MEDICAL INFRASTRUCTURE NEEDS ASSESSMENT FORM**

*Prepared by: AMIRSAN (USA) & TURMAKS Medical Systems (Turkey)*

*Purpose: To identify medical infrastructure needs for donor-funded hospital deployment in (.....).*

### **1. COUNTRY & MINISTRY CONTACT INFORMATION**

<b>Field</b>	<b>Information</b>
Country	Republic of (.....)
Ministry / Department	_____
Official Name & Position	_____
Email	_____
Phone / Mobile	_____
Signature & Seal	_____

### **2. PRIORITY HEALTH OBJECTIVES**

Please indicate **primary goals of the requested medical deployment** (check or circle multiple options)

<b>Objective</b>	<b>Select</b>
Expansion of critical hospital capacity	<input type="checkbox"/>
Emergency response readiness	<input type="checkbox"/>
Maternal & neonatal care improvement	<input type="checkbox"/>
Diagnostic / laboratory capability	<input type="checkbox"/>

**Objective** **Select**Surgical & trauma treatment capacity Rural healthcare accessibility Pandemic / disease outbreak preparedness 

Other (specify) → \_\_\_\_\_

**3. TARGET LOCATION(S) FOR DEPLOYMENT**

Region / City / District	Population	Current Medical Capacity	Priority Level (1-3)
_____	_____	_____	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3
_____	_____	_____	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3
_____	_____	_____	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3
_____	_____	_____	<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3

*(Attach maps or geographic details if available)***4. REQUIRED HOSPITAL TYPE & SIZE**

Facility Type	Required Beds	Additional Notes
Modular Field Hospital	<input type="checkbox"/> ____ beds	_____
Emergency Stabilization Unit	<input type="checkbox"/> ____ beds	_____
Intensive Care Unit	<input type="checkbox"/> ____ beds	_____
Surgical Theatre / OR	<input type="checkbox"/> ____ Count	_____
Laboratory / Imaging Unit	<input type="checkbox"/> ____ Modalities	_____
Maternal & Neonatal Unit	<input type="checkbox"/> ____ beds	_____
Mobile Clinic Units	<input type="checkbox"/> Quantity: _____	_____
Other (specify)	<input type="checkbox"/> _____	_____

**AMIRSAN**  
American Medical International Research,  
Systems and Network

## 5. EQUIPMENT REQUIREMENTS (IF KNOWN)

*(If not known → AMIRSAN & Turmaks will assess during mission)*

Category	Required Notes
X-Ray / Ultrasound / Imaging	<input type="checkbox"/> _____
ICU Ventilators	<input type="checkbox"/> _____
Surgical Equipment Sets	<input type="checkbox"/> _____
Oxygen Generation / PSA Plant	<input type="checkbox"/> _____
Laboratory Machines	<input type="checkbox"/> _____
Sterilization & Autoclave	<input type="checkbox"/> _____
Power / Solar / Backup Systems	<input type="checkbox"/> _____
Other	<input type="checkbox"/> _____

## 6. EXPECTED BENEFICIARY POPULATION

Category	Estimate
Population served annually	_____
Target vulnerable groups	_____
Estimated reduction in mortality / delay time	_____

## 7. FINANCING & DONOR ENGAGEMENT

**AMIRSAN**  
American Medical International Research,  
Systems and Network

Field	Info
Is government expecting zero-cost deployment?	<input type="checkbox"/> Yes <input type="checkbox"/> No
Can the Ministry co-finance operational support?	<input type="checkbox"/> Yes <input type="checkbox"/> No (Details: _____)
Are local NGOs or international partners involved?	<input type="checkbox"/> Yes <input type="checkbox"/> No (Names: _____)

*After this form is returned, AMIRSAN will prepare a complete donor funding dossier.*

## **8. ATTACHMENTS REQUIRED**

Please attach if available:

- Local health statistics
- Clinical demand vs capacity gap
- Preferred hospital design layouts
- Land allotment documents
- Letters of intent / endorsement
- Any additional relevant material

## **OFFICIAL APPROVAL**

**Name / Position**      **Signature**      **Seal**      **Date**
